CHICAGO, DANVILLE & VINCENNES
1st MORTGAGE BONDS.
Issue Only $18,500 per Mile.

THE ROAD NOW EARNING NET, NEARLY DOUBLE ITS ENTIRE INTEREST OBLIGATIONS.

THE LEADING POINTS IN RELATION TO THESE BONDS ARE AS FOLLOWS

The Stockholders have built a first class road and equipped it in a first class manner *mainly with their own money*

They have built their road through one of the richest portions of the State, where all the old roads into Chicago are earning over $10,000 per mile per annum, and are paying large and regular dividends.

They have built the shortest road to the celebrated Block Coal Mines, whose products have large and increasing market in Chicago, in the manufacture of iron, as well as for domestic uses.

The road is already earning so large an excess of its interest liability that its Bonds are safe beyond contingency

The amount of the mortgage is very moderate, being only about $18,500 per mile

While Railroad Bonds may be plenty, those upon profitable lines, and for so small an amount, are seldom in the market.

Over $1,200,000 of these Bonds have been sold in a few weeks to Trust Companies, Savings Banks, trustees of estates and the most careful private investors and but a small amount remains, for which early application should be made

That as only a small amount remains unsold, parties who want them should make immediate application

The Bonds are for $1,000 each, have forty years to run and bear interest at the rate of 7 per cent per annum, payable on the first of April and October, both principal and interest being payable in gold in New York

Price 90 and Accrued Interest

We do not hesitate to recommend these Bonds as unusually safe They are attended with none of the uncertainties of projected enterprises and the prompt payment of the interest, and the final payment of the principal, are as certain as any future financial event can well be.

The Custom House authorities on Friday seized $50,000 worth of liquors in the Charlestown Navy Yard, supposed to have been smuggled into port on the U. S. steamer Juniata.

The Fourth of July was more generally observed by Americans in Europe this year than ever before There were special celebrations in London, Edinburgh, Manchester, Liverpool, Paris, Stuttgart, Geneva and other cities

Martin Nickerson and Thomas Spilane while walking on the track of the Tremont street crossing in Boston, Friday evening, were instantly killed by the nine o'clock New York express train

Dr Driscwell, a well known physician of St Louis, while laboring under a fit of temporary insanity, on Friday, attempted to murder his wife with a pocket knife. He aimed a blow at her throat which he missed, but struck on her shoulder, inflicting a painful wound. He then drew the knife across his own throat but failing to cut deep enough plunged the blade to the hilt in his abdomen, inflicting a painful wound.

A can of nitro-glycerine was maliciously exploded in front of Wm Holbrook's house at North Adams, Mass, on Wednesday night last, probably by scoundrels who meant to be revenged on State Constable McKay, but as he had changed his boarding place he was not harmed The front of the house was badly shattered.

The new coal mine, two miles north of Lamaville, on the Cleveland & Pittsburg rail road, Ohio, took fire about three o'clock on Wednesday afternoon There were twenty men and one boy at work in the mine, eleven men escaped, and nine men and the boy were smothered to death. Up to twelve o'clock Thursday morning seven bodies had been recovered The fire has been subdued.

It appears that the steamer Fannie, which left New York a few weeks since with fillibusters and arms for the Cuban insurgents, struck on a reef off the coast of Cuba. Some of the arms were landed, and afterwards seized by the Spaniards, together with some of the fillibusters. A part of the fillibusters, after burning the Fannie, escaped in a boat to the Bahamas, and have sailed for New York, sadder if not wiser men.

At the meeting of the Army of the Tennessee at Madison, Wis., Friday evening, Gen. W T Sherman was re-elected President, Col. Dayton, Recording Secretary, Gen Hickenlooper, Corresponding Secretary, and Gen Force, Treasurer. Gen. John A. Logan was elected orator. Toledo, Ohio, was selected as the next meeting place on the 17th and 18th of October, 1873.

The old iron which was so fearfully and wonderfully twisted in the fire which consumed the R R bridge at Topsham is now being worked over by the blacksmiths to be put into the new structure. A temporary shop with forge and bellows has been put up near the bridge on the "Brunswick side."

A disgraceful street fight took place Thursday forenoon, in front of First National Bank in Biddeford between one Charles Andrews and a man named Jellerson, on account of an alleged intimacy between Andrews and Jellerson's wife Both were arrested, and will be brought up for trial

The Lewiston Journal says We understand that efforts are being made to have Goldsmith Maid, the trotter that recently made the fastest time on record, and Lucy, her competitor in that race, make a match on the Lewiston Trotting Park. If arrangements can be make for extra trains and reduced fare on the railroad, the plan will probably be effected.

China voted Tuesday, for the second time on loaning its credit to the Wiscasset & Kennebec Railroad, the vote standing 226 for and 164 against the loan Many who voted against the loan will change their votes provided the route is changed. This will doubtless be done, as the route from Weeks' Mills to South China and thence along the lake to China Village is thought to be the most feasible.

On Tuesday last, as James Welch and Durmont Hilton were running a boat heavily loaded with log driving utensils and supplies, over Bombazee Rips in Norridgewock, the boat upset and Mr. Hilton was drowned—Mr Welch was injured but it is hoped not seriously Mr. Hilton was about 30 years old and resides in Anson. The remains have not been recovered.

Hon. P. P. Burleigh, Land Agent sold on Saturday in Houlton at the Snell House the balance of the property seized last winter from trespassers on township No. 11, Range 3, consisting of pork, flour, molasses, oats, &c., which brought $334.39, being $43 75 more than the minimum price There was no property replevined, as at the former sales Good title was guaranteed by the State.

The anniversary exercises of the Maine Central Institute at Pittsfield, occured July 2nd, at the Chapel in the Institute building The weather was not favorable. A fair audience gathered in spite of the rain, to listen to the exercises The parts were well performed The presence of the Pittsfield Cornet band added interest to the occasion—Four gentlemen and three ladies contended for the Manson prizes. The prizes were awarded to Geo. H. Wyman of Chester, and Alna S Pendexter of Pittsfield Miss Clara A Forbes of Paris a graduate of the Farmington Normal School, has been engaged to teach in the Normal Department the ensuing year.

THE SCHOONER JAMES BLISS.—The following letter from the master of the schooner James Bliss is published in the Quebec Chronicle —

To the Editor of the Morning Chronicle,—Sir —I have noticed in different papers remarks regarding an insult said to have been made against the U S flag by Commander Lachance of the Dominion Cutter Stella Maris who seized the schooner James Bliss of which I am master, for fishing within the prescribed limits I acknowledge that laboring under the impression that the treaty was settled and all resolutions removed, I was found fishing in Canadian waters In justice to Commander Lachance, I must say that while performing what I suppose was his duty he has treated me kindly, and like a gentleman, this treatment I have also received in Quebec from Mr. Gregory and Mr Tilton of the Department at Ottawa whom I met at Mr Gregory's office at Quebec. Regarding the turning down of the Union, of the American flag when the Dominion flag was put at the mast head, I firmly believe this was done through mistake or simple ignorance of the second officer left in charge, the prize Commander Lachance not being on board at the time

Since the New York Tribune ceased to be an "organ," it has contracted the singular (in view of its past course) habit of wailing over Democratic defeats. The Oregon election troubles it greatly, and for want of something better it cries out "fraud." Nevertheless, the Tribune is an "independent" paper. POLITICAL AND PERSONAL.

The New Hampshire Legislature finally adjourned on Thursday

Several Democratic papers in Oregon have declared against Greeley

The Democratic John A Griswold is anti Greeley

The South Carolina Republican State Nominating Convention is to be held at Columbus on Wednesday, August 21

The Savannah (Ga.) News still clings to Gen W. S Hancock as a Democrat who can be elected President.

Lieut. Grant was presented to M Thiers on Thursday, and was cordially received He leaves for home on the 11th inst.

Many delegates to the Democratic Convention from the western States and Territories are en route for Baltimore

Hon. George J Hatheway, Provincial Secretary of New Brunswick, died Friday morning, from injuries received in stepping from a railway car

Alex. H Stephens insists that the Georgia Democracy should feel no more bound by the action of the Baltimore Convention if it endorses Greeley, than it would if it adopted the Grant platform.

Alex. H. Stephens republishes Judge Linton Stephens' long and bitter attack on Greeley, and says the demand for it is very great One order came from Western New York for 1000 copies.

It is asserted that since the close of the rebellion not less than 23,000 persons, black and white, have been scourged, banished or murdered by the Ku Klux Klans of the South—There were no Democrats among them

One of the many biographies of Mr Greeley is advertised with the recommendation that it is "not an old life re published" It may not have occurred to H G, but it is true, nevertheless, that his "old life" was much more acceptable to the American people than his "new life" is likely to be He never made a greater mistake than when he made the swap.

The Boston Globe says "A well known gentleman who has just completed an extensive tour through North Carolina, South Carolina, Florida, Alabama and Virginia, and who has endeavored to inform himself thoroughly concerning the political situation, says that Greeley will not obtain an electoral vote from any of the States named "

Greeley's free trade supporters remind the Detroit Tribune of a certain politician immortalized in the "Bigelow Papers "

"I go agin it,
That is to say, I kinder dew,
Leastways I think that bein' in it,
The best way is to fight it threw

The Albany Evening Journal says "The Greeley camp is a sort of hospital for political invalids who have been given up by all decent doctors as chronic knaves, hopelessly incurable, and who now resort to the Cincinnati quacks to procure plasters for their damaged reputations Falstaff's battalions were moral princes in comparison "

Hon John J Davis, member of Congress from the First District of West Virginia, refuses to throw up his hat for Greeley In a recent letter he says

"The delusive and dangerous cries of 'anything to win,' or anybody to beat somebody else, constitute no part of my political creed It is the faith a political party teaches that binds men to it by the ties of allegiance, and when principles are abandoned the party dies."

Mr Gideon Welles has contributed his valuable opinion to the current discussion of Republicanism vs Tammany Democracy and Greeley He thinks the Republican party has "performed its mission" The trouble with the venerable Gideon may be summed up in three short words Out of office He belongs to the tribe of ex's, whose disaffection is chronic.

It is said that Horace Greeley, in a conversation with a friend recently, remarked that "he was much surprised to think the defection in the Republican ranks was no greater than it appears to be at the present time."—Like the man who fell off the top of the stage coach, if Horace had only known the stage hadn't tipped over, he'd never got off

Hon Henry Wilson will open the campaign in Portland with a speech on or about the 10th inst., and will soon afterwards go to North Carolina, where he will speak at several places

Our friends think also that Mr Greeley means well. Perhaps he meant well when he encouraged and justified secession—when he "nagged" President Lincoln to buy a peace—when he promoted foreign intervention—when he gravely perplexed Mr. Lincoln by his Niagara performances—when he complained to Mr Seward long ago that he had not been rewarded with an office—when he half apologized for Sweeney and Tweed—whenever he has done anything that showed his fatal want of judgment Had he been President instead of Lincoln he might have meant well in surrendering to the rebellion Do our friends think it enough to mean well, if you have no judgment?—[Harper's Weekly

NELLIE GRANT AND THE QUEEN —The following letter, written by Miss Nellie Grant to Queen Victoria previous to her recent visit to Windsor Palace, is published by the San Francisco Chronicle having been received through private sources Its simplicity and good sense will be heartily appreciated

"LANGLEY'S HOTEL, May, 1872

"My dear Lady and Queen I am embarrassed at the honor of an official request, given through a high officer (your Lord Chamberlain, I think,) to be presented to your Majesty I should dearly love to see you that I might tell father and mother that I had been thus honored I am but a simple American girl; that I am the President's daughter gives me no claim to your recognition as a sovereign If, with the kind lady who is acting as my *chaperon*, I might visit you, I should be glad. Our secretary of legation hints at some political significance in this opportunity. I cannot so interpret it, and would not wish to be so received, because it would not be right, as I am nothing in American politics, and I am sure my father would not desire me to appear other than as my simple and humble self If, with this explanation your Majesty will allow me to visit you, I shall be greatly honored and be very proud

"I have written this note of my own motion, and because I think it the right thing to do I am your Majesty's very obedient servant and admirer, NELLIE GRANT

The Queen returned the following pleasant answer

'WINDSOR CASTLE

"Miss Nellie Grant I have instructed Lady — to convey to you this note and we shall receive you as the daughter of your honored parents without the intervention of our high officers of state. I shall accept your visit as an 'American girl,' and there shall be no other significance in the fact that your kindly expressed desire to see the lady and not the sovereign. I shall find it pleasant to forget that I am Queen in receiving you to-morrow afternoon at our place of Windsor

Mr Henry Bergh has protested against muzzling dogs in this terrible weather Mr Bergh is right The muzzle is a cruel instrument at such times for dogs can only perspire through the open mouth It is a relic of the old superstition now happily almost abandoned that hydrophobia is caused by the heat, whereas careful observation by the veterinary surgeons of France, and other competent authorities, proves that canine madness is most prevalent not in the hottest but in the wettest seasons and the Summer months are just the period of the year when it is least common From the records kept at the famous veterinary school of Alfort, near Paris, it appears that twice or three times as many cases occur in April November, and December, as in June, July and August

HORRIBLE ACCIDENT Thursday evening at Seymour Ind, a man named Norris, while fighting a hall preparatory to a theatrical performance, let fall a coal oil lamp in the midst of a group of children The lamp broke, spreading the burning oil in every direction and setting the clothing of the children on fire The little sufferers ran wildly through the hall, and before the flames were extinguished three little girls were so badly burned that they died in seven hours. Norris was also badly burned, but not fatally It is said that he was drunk, and only his injuries prevented his being roughly handled by the horrified citizens

MR. GREELEY IN NEUTRAL TINTS

As some of our Democratic contemporaries have recently evinced a ... the utterances of the Boston ... we commend to them the following portrait of their candidate from that journal of July 4th —

Mr Greeley is the founder and successful manager of the New York Tribune but his first introduction to the public was as an ardent advocate of the whimsical and impossible doctrines of Fourier the leader of the French socialists. He was a firm supporter of the famous Fanny Wright or Darasmond during her proselyting career in this country and a cooperator with the celebrated Brisbane in disseminating the new lights of French philosophy. Whether he obtained his sobriquet of the Philosopher in consequence of his warm advocacy of socialism we are not informed, but it is quite probable that such was the origin of his title. Blending with his doctrine of a community of property the contemporary notion of vegetarian diet he was also an earnest supporter of the Graham theory vulgarly known as the "bran bread" system of diet. His present adipose complexion gives evidence that he is still a faithful disciple of St Vegitarius.

In later years Mr Greeley built up his newspaper into an influential party organ for the Whigs and for a series of years made the best Whig almanac the country was ever blessed with. But his peculiar socialistic and graminivorous notions always cropped out in his political productions and made him advocate a paternal theory of government. In his view the government should be the father of the national family employ and feed them all, prescribe rigid rules for their physical and moral conduct, and breach them soundly if they dared to disobey. He was ever a positivist and saw no objection to making everybody eat bran bread and drink cold water by law.

By the aid of his widely circulating journal Mr Greeley was also enabled to ride another hobby with success and that was farming — With a current sub editor of agricultural pretensions, he made the Tribune shine as an oracle of the farmers and at length, emboldened by his success with this topic he ventured to publish a book entitled "What I Know About Farming." Being also of a confiding and credulous disposition and of a visionary turn of mind, Mr Greeley has sometimes been seduced by sharpers into speculating schemes of one kind and another, and of more or less importance. When the sharper class increasing in boldness doomed the public purse as its prey it still found means to retain its hold upon Mr Greeley and mixed him up in its schemes. His last connection of this kind was with the notorious Tammany Ring, and it is supposed that they have not done with him yet.

Baltimore is already enlivened with delegates to the Democratic Convention. It is proposed to make Gen. McClernand of Illinois President of the Convention, and to remove Mr Belmont from the chairmanship of the National Committee.

Among the terms of peace which Horace Greeley proposed in 1864 was the following: "The Union to pay four hundred millions of dollars in five per cent United States stock to the late slave States, loyal and secession alike, to be apportioned *pro rata* according to their slave population respectively by the census of 1860, in compensation for the losses of their loyal citizens by the abolition of slavery."

"The Blairs" will be at Baltimore with the usual result," and Greeley will be voted for in November "with the usual result." N B —Greeley has been a candidate for office twenty three times and he has never been elected but once, and that was to the butt end of a Congressional term. Some New Yorker had served a year and a half in the House and got tired of it. He picked up the stump and smoked it out.

The latest number of Harper's Weekly has a picture by Nast of a man sitting with a big bowl in his lap, and a spoon in his hand evidently about to partake of a full meal from the smoking contents of the basin which is marked, "My own deeds and words." The idea that to obtain the support of the Democrats, Mr Greeley must eat these words and deeds is happily suggested by this little sketch.

The New York Times charges—and the charge has not been we believe denied—that there is a bargain between Greeley and the Tammany ring in pursuance of which they support him. Through this bargain Gov Hoffman expects to get the renomination for Governor and the Greeley tea and Fentonites will support him, provided he uses his influence in favor of Greeley for President. The Nation, always careful in its statements, also asserts that Mr Greeley is daily contracting obligations to the Tammany politicians which he will be forced to discharge by quartering them on the treasury in the event of his election. It is certain the class of men who are making themselves prominent on his behalf in New York are not in the habit of working for a living.

Mr Greeley is missed from his old familiar haunts in New York, says the Traveler but he can be seen by a few favorite friends upon application to John Cochrane or Ethan Allen but not alone, his inseparable companion is Theodore Tilton who having placed Victoria Woodhull on the Presidential track by writing up such portions of her life as his fastidious taste selected has abandoned her for a more popular candidate. Cochrane and Allen make sure that no improper persons are brought in contact with their candidate, and Tilton is on his guard that nothing may be said by the candidate to injure his prospects. Those who regard the first-named two as good representatives of political morality, and the other as the embodiment of the private virtues, will not complain of the guardianship they are not permitted to exercise, but there are people so fastidious that they would prefer to see a presidential candidate with different surroundings.

THE ORANGE CELEBRATION IN NEW YORK. It is very evident that the leading Irishmen of New York apprehend trouble between the Orangemen and Irish Catholics on the twelfth of July. The very fact of their having, in several instances, publicly urged their countrymen to refrain from any riotous demonstration, is prima facie evidence of their apprehension. Every effort is being made, however, by the more temperate class of the Irish population, to prevent a repetition of the horrors of last year and the year before. The latest measure which we have taken in securing the services of the Rev Father Burke, to deliver a lecture on "Irish Americans, their duty to God, to their Native Land and to their Adopted Country." A committee has been formed of such men as Charles O'Conor, Bernard Casserly and Col. Roberts, who pay all the expenses of the lecture, which is to be free to all members of Irish societies and is with all the eloquence of the noted Dominican to counsel moderation and peace.

OXFORD COUNTY REPUBLICAN NOMINATIONS. The Oxford County Republican Convention made the following nominations — Senators—Enoch C Farrington of Fryeburg, J K Martin of Rumford. County Commissioner—Wm Chase of Buckfield. Treasurer Major F E Shaw of Paris. Registers of Deeds—Sumner R. Newell of Peru, Asa Charles of Fryeburg. Sheriff—L. D Stacy, Register of Probate—H C Davis of Bryant's Pond.

VETERAN SOLDIERS CONVENTION. The veterans' national committee, appointed by the meeting of veterans from all sections of the country held in Philadelphia, June 5th, in attendance on the Republican Convention, have issued an address calling a General Convention of soldiers and sailors of the late war at Pittsburg, September 17th, 1872, the anniversary of the battle of Antietam, to indorse the nomination of President Grant and Senator Wilson, and to give expression to their unreserved belief that the destinies of the country for the ensuing four years should be under the protection of men who never faltered in the country's greatest danger. Among the signers are A E Burnside, chairman, Powell Clayton, George E Spencer, R J Oglesby, Sol. D Meredith, Granville M Dodge, John M Harlan, Charles R. Brayton, J L Chamberlain, N P Banks, E W Hinks, Joseph R Hawley, Lucius Fairchild, F E Noyes, Joseph C Abbott, James S Negley and Edward McCook.

PRIZE DRILL. At the Prize Drill under the auspices of the Boston city government on the Fourth but four companies appeared to contest—the Jackson Guards of Charlestown, the Montgomery Light Guard of Boston, the Sheridan Rifles of the 1st Regt., and the Grattan Guards of the 9th.

The judges Major L G White, formerly Military Instructor of the Highland Cadets, Capt Abner S Merrill, Military Instructor at Amherst and Capt O E McMillis, U S A. decided to give questions, and the captains of the several companies were required to execute all the different movements under each question, any movement being left out would count a point against the company so doing.

The questions of the judges were as follows: First, form company. Second, execute manuals in closed and open ranks, stack arms, loading and firing. Third, inspect companies. Fourth, march in double and quick time march by right and left flanks, march by twos, reform in fours form single rank, reform double ranks take single rank distance, and reform in double rank distance — The companies having performed the movements called for, a short consultation of the judges was had, and the first prize of $400 was awarded to Capt. Harrington of the Jackson Guards of Charleston, second prize, $250, Capt. to Mullins of the Montgomery Guards, third prize to Capt Wm Evans of Sheridan Rifles.

THE FRENCH ARMY BILL. In the French Assembly the Army Bill is still being discussed, clause by clause. The portion which, permits, previous to drawing by lot, the voluntary engagement for one year on the part of young men belonging to, or qualified for admission to, the national schools of art, manufactures, trade fine arts, or music, as well as the pupils of the national veterinary and agricultural schools, was opposed as violating the principles of equality and unduly favoring the cultivated classes.

THE CANADIAN ELECTION. A general election is to take place in Canada this year, and already the parties are bitterly waging the contest. Both sides, of course, are confident of success at the polls. The Government confidently expects to be sustained, while the opposition hope to gain numbers enough to shape the future legislation of the Dominion. Forming an efficient working Governmental organization out of the opposition in Canada, is the difficulty which hedges around the liberals in that country. That can be overcome however, if the real friends of the Dominion will persistently give the go-by to demagogues, and elect to the Home Legislature men who will vote for the people and not for the few.

GERMANY AND THE PAPACY. Signs of increasing variance between Germany and the Papacy from time to time, manifest themselves. At the close of the present session of Parliament the bill against the Jesuits was read a third time, by a majority of 131 against votes. A significant article in the North German Gazette touches on the subject of Papal elections, and says that, since the ancient independence of Bishops has been destroyed and the Pope is virtually Bishop in every diocese, care must be taken by Governments in future elections that the personal character of the Pope appointed shall be such as to afford a guarantee against the abuse of such arbitrary power.

RAILROAD ACCIDENT—THREE PERSONS KILLED AND TWENTY INJURED. At six o'clock Thursday evening, two trains on the South Side Railroad L I collided between Fresh Pond and Berwick stations. One train had stopped to avoid running into the other. A telescoping of engines took place. Three persons were killed and twenty injured. Three of the wounded will die, two had their legs cut off and two others will have limbs amputated. The sufferers were for a long time without water or a physician. Mrs Nelson Rowe and son Frank have died of injuries received. It is clearly established that the accident was caused by the culpable disobedience of the rules of the Company by Conductor Rathbone, for whom, as well as Engineer Scott, warrants of arrests have been issued. Scott, who jumped from the engine after the collision, has not since been seen. Both men were removed by Superintendent Douglas.

WHAT GREELEY'S ADMINISTRATION WOULD SECURE. At the Greeley meeting, in Baltimore last Tuesday night, ex Governor Swann used the following language: "As to the past record of Greeley, that should be regarded as apart from the present question and for his future there was every reason to believe that his administration would secure everything that could be asked by Democrats."

GOVERNMENT CHANGES IN THE DOMINION. Several important changes are to be made soon in the disposition of Government officers in the Dominion. John O'Connor is to be minister of Internal Revenue in place of Alexander Morris, appointed Chief Justice of Manitoba, that gentleman's portfolio being taken by Dr Charles Tupper of Nova Scotia, and Mr. O'Connor taking the duties of President of the Council.

FATAL RAILROAD ACCIDENT. Thursday afternoon, as the outward bound train from Boston for Dedham was passing through Hogg bridge it struck Mr. I K Kimball of Rockland, Maine, knocking off the top of his head and breaking one of his legs. He was taken up in an unconscious state and carried to the Tenth Station, but died before reaching it. Mr Kimball and his daughter had been stopping at the Sherman House, Boston, and it is a mystery how he came to be upon the railroad at that time, as it was expected by his friends that he had gone to Charlestown. When struck he was leaning against an abutment, having just stepped off the track into a secure position, as he probably supposed. Mr. Kimball was President of the Rockland ... Club, and was prominent in business and politics. He was President of a Marine Insurance Company in Rockland, owned ... in blocks of stores, ... in both branches of the Legislature.

THE PROPOSED SHIP CANAL. The surveying party sent out to Nicaragua by the United States to ascertain the best route for a ship canal, have completed their work as far as they can the present season. They have surveyed three routes, running the transit and level over each. The first route was the one surveyed by Col Childs about twenty years ago, running from the mouth of the Las Lagas river at its intersection with Lake Nicaragua to Brito, on the Pacific coast, a distance of about nineteen miles, and with an elevation of 43½ feet. The next route enters the lake a couple of miles to the north, and joins the Brito route near the divide, with an elevation of 135 feet, making the canal a mile shorter, with less work to cut. The last was the Buena Vista route, still further north. This line has an elevation of 180 feet, but only for a very short distance. It shortens the canal over four miles, and in the opinion of the party is the most feasible route. The rainy season prevented the completion of the work, which will probably be resumed in December.

On the Secret Causes of Self Acquired Miseries and Disappointed Hopes

The popular and scientific Medical Work, "Human Frailty or Physiological Researches" enlarged to 143 pages, and elaborately illustrated with explanatory colored engravings on steel, explains the causes and points out the cure for the Physical Decay of the System, Dormant Vitality, Local and General Debility, Nervous Irritability, Consumption, Indigestion of the most fearful and exhausting kind, Intense Melancholy and Depression of Spirits, and partial or complete extinction of the Reproductive Powers.

An attentive perusal of "Human Frailty or Physiological Researches" will show how these dreadful complaints may be prevented and removed so as to restore the sufferer to the full and permanent enjoyment of Vigorous Health.

Sent free every where on receipt of 25 cents. All letters and parcels to be directed to the author, Dr H A BARROWS, Franklin House, Bangor, Me.

FROM SACO.

SUICIDE.

SACO, July 6.

A man named Thomas J. Rogers, committed suicide in this city to-day by jumping into the Saco river at Island Falls. His body has not yet been recovered.

FROM BIDDEFORD.

FIRE.

BIDDEFORD, July 7.

The house, stable and outbuildings of Benjamin F. Hamilton of this city were burned about noon to-day by an incendiary it is supposed. Loss heavy.

The body of Thomas Rogers, who committed suicide Saturday by drowning, was recovered at the foot of Island Falls to day

DOMESTIC NEWS.

NEW YORK.

THE WEATHER—DEATHS FROM SUNSTROKE.

NEW YORK, July 6. The weather this morning is somewhat cooler. The thermometer yesterday was 98° in the shade.

Thirty-four new cases of sunstroke were reported yesterday. The number of deaths 35.

THE ERIE DIRECTORY.

Nothing definite has yet transpired concerning the secret meeting of the Erie directors held yesterday. The Times' information of the selection of Vanderbilt as President of Erie is based upon report, although it is known that that gentleman would like to have Erie under his control. Other reports state that Vanderbilt has declined to accept the Presidency.

A TERRIBLE RECORD.

The deaths this week ending at noon to day were 1569, the longest death roll of any week in the history of the city.

THE AMERICUS CLUB

revived gives a grand opening to day at Indian Harbor.

The Times prints the names of the prominent members, including Wm. M. Tweed, Jay Gould, Judges Shandley, Coulter, Bedford, Barnard, Hogan, Scott and others, well known members of the ring.

TERRIBLE FIGHT.

A terrible fight took place yesterday on a steamboat on the Hudson river, in which an Irish military company from Newark were having a picnic excursion. Several were badly wounded by bottles and bayonets and one or two deaths are reported.

KILLED BY LIGHTNING.

It is now believed that Mary Butler, who it was supposed was murdered in her house in Brooklyn, was killed by lightning on the night of the 4th.

RECEPTION.

The Garde Lafayette last evening voted to receive the French band on its arrival from Boston to-morrow morning, by a deputation of the Garde, as a procession will not be allowed on Sunday. They will be provided with a collation and quarters to-morrow, and on Monday will have a formal reception by the Garde Lafayette, and a parade will a participated in by all French societies in the city and large numbers of French residents. The band leaves next week on a trip to Chicago.

COMPLIMENTARY TO BOSTON.

At a private reunion last evening to the British Grenadier Band, Colonel Fluyder and Dan Godfrey made short speeches, both highly laudatory of the grand reception and warm welcome received by the band in Boston.

SUDDEN DEATH.

Judge McCunn died this morning suddenly. His death, which occurred at 1 o'clock, was the result of great mental depression caused by the Court of Impeachment, in finding him guilty of malfeasance in office, and in removing him from his office as judge by a unanimous vote. His relations, who were with him at his last moments, state that he died of grief and a broken heart.

THE BANK STATEMENT

for the week shows an increase of circulation $92,300; of loans $1,500,000; of deposits $9,387,000; of specie $5,000,000; and a decrease in legal tenders of $2,442,800. This shows a gain of about $1,177,375 in the reserve.

BALTIMORE DELEGATES.

Gov. Hoffman and a number of delegates from this State left for Baltimore this morning.

THE STRIKERS RESUMING WORK

Work will be resumed at the old basis at the Singer machine factory Monday. Nearly all the strikers are taking their old situations.

The eight-hour movement is on the decline. The Employers' Executive Committee are advised of acts of a tyrannical character on the part of different labor organizations in their efforts to restrain workmen from returning to the old system. The strikers in a great measure have killed the building trade of the season. A hundred destitute mechanics are applying for work to the Employers' Committee.

The treasurer of the International Union of Machinists and Blacksmiths arrived to-day from Cleveland, and the prospect of pecuniary aid may serve to prolong the strike of the metal-workers. A number of sewing machine and cabinet makers resume work Monday. The Paterson locomotive works expect to commence Monday, hiring such men as offer themselves at the old rates.

PERSONAL.

President Grant and wife arrived this morning from Long Branch to see their son Ulysses off to Europe. Ulysses accompanies A. J. Drexel and family and will be gone until October.

COLLISION.

An Albany dispatch states that a freight train crossing the bridge came in collision with a train at the east end of the bridge this morning. Several cars were wrecked. The bridge was slightly damaged, and the conductor, Daniel Laramie, badly injured. One of his legs was amputated.

CAVED IN.

A portion of the Shawannaguck Tunnel on the Midland Railroad caved in last night. The passengers will be conveyed over the mountain for the present.

FENIAN SUICIDE.

A Dublin dispatch says that a prominent Fenian named Martin Hanley Carey drowned himself in the River Liffey, in a fit of insanity.

FIRE.

The picture-frame factory of Sanford & Son, in Syracuse, was burned to-night. Loss from $80,000 to $100,000; insured for $45,000.

ACCIDENTAL DEATH OF AN INVENTOR.

Charles Clinton, 68 years of age, was struck by train on the railroad at Middletown last night and fatally injured. He was the inventor of the patent steam safety valve, car coupling, locomotive spark-catcher, flange for car-wheels, car-springs, incombustible boilers, self-registering scales, cement, and many other patents. He built Harper's second building in New York.

NEW YORK AMUSEMENTS.

NEW YORK, July 7. Officer Donohue of the 5th precinct at Williamsburg was found on Saturday night lying insensible, on the sidewalk, with his skull fractured and his face badly bruised and died to-day. He is supposed to have been beaten by a Battle Row gang of rowdies.

A horrible case of malpractice has been developed at Morrisania, viz. Bridget Edmond, wife of a German laborer, and an unborn babe died from the operations of a mid-wife named Brown, while a Dr. McIlray, who was attending the dying woman, is said to have given burial certificates, with full knowledge of the crime.

IN GENERAL.

The Grenadier Band sailed for London to-day.

Highest thermometer to-day 86—in the evening 77°; also slight showers.

The funeral of Judge McCunn will take place to-morrow from St. Peter's (Catholic) Church, where solemn requiem mass will be celebrated.

The sewing machine strikers will resume work Monday on the old time and wages.—They received no assistance from the 8-hour league and their funds gave out.

There will be a general inspection of tenements in this city to-morrow by physicians of the Board of Health, made necessary by the great mortality the past week.

KENTUCKY.

EXECUTION.

LOUISVILLE, July 6. Thomas Gunthier, a negro, was hung at Danville, yesterday, for murder.

TRIAL OF EDWARD S. STOKES

NEW YORK, July 6. The first witness in the Stokes case to-day was John Moore, who testified that he saw Fisk go into the Grand Central Hotel, January 6: afterward the boy Redmond came and said

FISK WAS SHOT.

Witness went in and caught the Colonel under the arms. There was no one present but the two of them. He was just going to ask, "Are you hurt?" when Fisk said,

"HE WAS TOO QUICK FOR ME THIS TIME."

When Fisk's colored driver asked him what happened, and on telling him, the colored man said, "Wonder the old man didn't pull on him before he was fixed," and afterwards said, "I carry two myself for sometime."

The cross-examination brought out no contradictions.

Geo. W. Bailey was next called but the Court would not admit what the defense

FAILED TO PROVE

to him, as to what Stokes said and did before the murder. Bailey testified that he met Stokes near the hotel and the latter endeavored to persuade him to go into the hotel, but the latter declined, and on walking up Broadway met Stokes' brother. Both returned to the hotel where they heard of the shooting of Fisk. Thence went to the station house to see Stokes. While at the latter place saw

THE BOY REDMOND,

who on being asked what was the matter with him said he was brought there as a witness to the shooting, but was so frightened he hardly knew how it happened.

John Gibney testified that he saw Fisk arrive and go into the hotel, and the boy Redmond shortly run out crying, "Colonel Fisk is shot." Gibney went around to the front entrance and saw Stokes sitting on the bench with the porters. Heard Powers ask Stokes what he came to the hotel for, and Stokes said he came to see Mr. ——, but the name was not heard by witness.

C. H. Reed testified to knowing that

STOKES WENT ARMED.

A number of questions were here excluded, after which P. J. Rothwell, a porter at the hotel, testified that he was unable to find

PISTOLS IN THE PARLOR

the evening after the murder.

The Court then adjourned till Monday.

MASSACHUSETTS.

FATAL ACCIDENT.

BOSTON, July 7. Henry Waldron, engineer, and Joseph Eldridge, fireman, on the Fall River Railroad, were killed near Tremont, yesterday, by their train being thrown off by cattle on the track.

CHURCH DEDICATED AT LOWELL.

LOWELL, Mass. July 7. The vestry basement of the church of the Immaculate Conception at Belvidere, was opened to-day by dedicatory services; high mass at 10:30 o'clock. Bishop Williams delivered the address. Subject:—"The Christian love of God in building and adorning His Temples." The auditorium, which will seat nearly 2000, was densely crowded. In the afternoon the

RITE OF CONFIRMATION

was administered by the Bishop to 260 children and adults. There was present Rev. Father Vanderbergh of Montreal, Superior of the order of Oblate Fathers, under whose efforts the edifice is being erected. Fathers Garin and McGrath, Reos, Mangin, Barber, Lefavre and Toolet of Lowell, participated. When completed the church will be the largest and most imposing church edifice in Lowell. It is of solid stone masonry and it will take four years to finish it. It is expected that the

IRISH BAND

will give a concert at Huntington Hall on Wednesday evening

VIRGINIA.

THE FUTURE HOPE OF THE SOUTH.

LEXINGTON, Va., July 5. In concluding his address to the cadets, at the Military Institute, Hon. J. P. Holcomb said: "The Government thrust upon us, by force we now accept, without any abandonment of principles of our choice. The future hope of the South lies in the Union. Without it many sections of South Carolina, for example, would relapse into the barbarism of a West India Province. Time and magnanimity will restore friendship, and even now passions are subsiding."

PENNSYLVANIA.

DEATH RATE IN PHILADELPHIA.

PHILADELPHIA, July 6. The deaths for the week were 764—an increase of 250. One half of the deaths were children under a year old.

STRIKE AT LOCK HAVEN.

LOCK HAVEN, Pa., July 6. The visit of the Williamsport ten-hour mill-men, resulted in the formation of a Ten-hour League here. Ninety-nine men joined the league here last night and this morning they paraded 180 strong on a strike. One mill is stopped and all the men are on a strike for ten hours.

POISONER SENTENCED.

Edward Smith, colored, was to-day sentenced to 14 years in the Penitentiary for attempting to poison the family of G. C. Morris in Germantown a few months since.

UTAH.

THE INDIANS QUIET.

SALT LAKE, July 6. The Salt Lake Herald's special says that Gen. Dodge has interviewed the Indians reported to be hostile, and gives assurance that they have no hostile intentions.

NEW HAMPSHIRE.

FIRE AT FRANKLIN.

CONCORD, July 7. A fire broke out about 2 o'clock this morning in the bleach room of the Winnepissogee, No. 2, paper mill, at Franklin. The building was of wood, two stories and a basement, 45 by 100 feet, with attachments for machinery, and contained machinery for bleaching, washing and dreaning the stock. All was burned, together with 20 tons of rags. The cause is supposed to have been accidental. Loss about $35,000; insured for $50,000 in 18 companies. Work will have to be suspended for six weeks or more, and about 45 men are thrown out of employment.

MICHIGAN.

THE STRIKE.

DETROIT, Mich., July 6. Scarcely a mill or salt block in Saginaw Valley is running to-day. The strikers held a meeting at Bay City to day, attended by upwards of a thousand men, and resolved to hold out for a reduction in the hours of work. The mill owners are equally determined to accede to nothing. No riotous disposition was shown by the workmen and no trouble is apprehended.

FROM WASHINGTON.

GEN. HOWARD'S REPORT.

WASHINGTON, July 6. General Howard has made a report to the Sec'y of the Interior, concerning his operations in Arizona.—He believes Gen. Cook should have large discretion, as no one can do anything well bound hand and foot by a multitude of specific orders which may or may not apply to the situation. Gen'l Howard recommends that the order relieving Cook from the operation of the telegram which suspended hostilities against those who refuse to obey the orders of the government with a view to another strenuous effort for peace be confirmed, and that his hands be strengthened by allowing him an additional number of mechanics and laborers, that the soldiers may be able to perform the duty of soldiers.

SUDDEN DEATHS.

Seven or eight sudden deaths have occurred in Washington during the present week, two or more of them from the effects of the heat.

Mrs. Drake Mills, who fell from the Metropolitan Hotel window on the morning of the Fourth, died to day.

APPOINTMENT.

George W. Ingalls has been appointed Agent for the Piute Indians in South Eastern Nebraska.

OHIO.

THE TURF.

TOLEDO, July 6. The last race of the Quickstep Park meeting, which remained undecided at dark last night, was finished to-day, resulting in a victory for Pilot Temple of Indianapolis. Six heats were trotted, Pilot winning the first, fifth and sixth. Time, 2.30½, 2.28½ and 2.30½.

CONNECTICUT.

COMMENCEMENT AT YALE.

NEW HAVEN, July 7. Commencement week at Yale was opened by the delivery of the baccalaureate sermon to the graduating class by President Porter. He took "Culture as related to Religion" as his theme, and closed his discourse by the customary farewell address to the graduating class. The day was delightful and there was a large attendance present. On Monday evening occurs the anniversary exercises at the Sheffield Scientific School.

VERMONT.

COMMENCEMENT OF THE UNIVERSITY OF VERMONT AND STATE AGRICULTURAL COLLEGE.

BURLINGTON, July 7. The exercises connected with sixty-eighth Commencement of the University of Vermont and State Agricultural College commenced to-day with the Baccalaureate discourse by President Buckham this afternoon, and the address before the society of religious inquiry this evening, by President McCosh of Princeton College.—Both were listened to by large audiences.

TRIAL OF MOWING MACHINES.

RUTLAND, July 7. The State trial of mowing machines and other hay implements which commences here on Tuesday, for which gold, silver and bronze medals are to be awarded, is exciting large interest in all sections of the country. A large number of entries have been made and

CLOSE COMPETITION

is anticipated. The trial bids fair to be made larger and more important than at first expected. The hotels are filling up with competitors and visitors.

MARYLAND

THE BALTIMORE CONVENTION—ARRIVAL OF DELEGATES—DETERMINED EFFORT TO OUST BELMONT—THE ANTI-GREELEYITES BUSY.

NEW YORK, July 6. A Baltimore despatch states that a large number of delegates to the Democratic Convention arrived there yesterday. The principal topic appears to be the selection of a national executive committee and officers of the convention. The question of candidates for the Presidency is hardly being discussed. A determined effort will be made to oust August Belmont from the chairmanship of the National Committee, and put William E. Niblack of Indiana in his place. John A. McClernand of Illinois will probably be President of the Convention.—The principal names mentioned for temporary chairman are Gov. Thomas of Maryland, Gov. Vance of North Carolina, and Thomas Bowen of Virginia. Nothing is heard of the proposed bolters' convention.

It is stated that the anti-Greeley Democrats have secured the Maryland Institute building in which to hold their convention next week. They will have a private meeting Monday and organize the convention Tuesday.

MORE DELEGATES.

BALTIMORE, July 6. About 200 delegates to the Convention arrived to-night, most of whom are from Southern and distant States. The majority of New York delegates including Gov. Hoffman and Aug. Schell have arrived.

CHANGE IN THE PROGRAMME.

NEW YORK, July 7. Baltimore specials mention a change in the programme, that neither Phillip Francis Thomas or Governor Vance stand a chance for temporary chairman of the Democratic Convention, and that John B. Baldwin of Virginia is now prominent, while Thomas S. Bocock and Jefferson Randolph of the same State, and Governor English of Connecticut, are also spoken of.—The names of Gen. Joseph Shields of Indiana, and Senator Casserly of California are talked of for permanent President, though Gen. McClernard still has the inside track.

THE NEW YORK DELEGATION—

have appointed Gov. Hoffman, chairman, Mr. Cassidy of Albany, and Mr. Gordon of Delaware County, secretaries.

There seems little doubt that Greeley will be unanimously nominated on the first ballot. It is believed that the bolters' convent on will never assemble.

FROM ALBANY.

MYSTERIOUS DISAPPEARANCE.

ALBANY, July 6. Samuel F. Cranston, of the firm of Cranston & Carhart of Albany, has been missing for ten days. When last heard from he was in New York.

FIRE IN THE N. Y. CENTRAL'S SHOPS—LOSS $235,000.

A fire which broke out this evening in the paint shop of the New York Central Railroad at West Albany, soon reduced the shop to ashes. About fifty cars loaded with freight, standing in the vicinity, took fire, and the flames also extended to three Wagner drawing-room cars. At first it was supposed that the fire would be confined to the paint shop, but a breeze sprang up and it was feared that all the buildings on the place would be swept away. The loss is estimated at 60 freight cars valued at $90,000; the freight in the cars at $50,000; three sleeping cars, $25,000; one drawing-room car, $20 000; five passenger coaches, $10,000; paint shop, $40,000; total, $235,000.

CHARLES FRANCIS ADAMS' VIEWS.

HE IS INTERVIEWED BY A "WORLD" CORRESPONDENT ON THE QUESTION OF HIS NOMINATION FOR THE PRESIDENCY.

NEW YORK, July 7. The World publishes the details of an interview by its Geneva correspondent with Charles Francis Adams, from which the following is an extract:

Correspondent—I have been asked, sir, to ascertain your views in regard to the coming Presidential election. Your candidature at the Cincinnati Convention was no doubt a surprise for you?

Mr. Adams—In one sense it was certainly a surprise; namely, that it was wholly unsolicited on my part. I have the greatest objection to what I may term "managed" candidatures of any kind. I have made it the guiding principle of my career on the one hand to decline no offer of public employment that I could accept with honor and credit and the prospect of being useful; and on the other, never to become an office-seeker of any kind. My unwillingness to intrigue or even to acquiesce in the intrigues of others with a view to my own promotion to a post of dignity, is so great that I feel sure I could never overcome it; and besides that, there is nothing in the candidature for the Presidency that would induce me to attempt such a conquest of my own inclinations.

Correspondent—Would you have accepted the nomination had it been offered by that Convention?

Mr. Adams—Your question is a somewhat difficult one to answer. My views, as you will remember, were laid before the Convention by letter, and inasmuch as that letter laid down a programme of principles it at least contained an intimation of my willingness to accept a candidature under certain conditions.

Correspondent—In the event of the Democratic Convention at Baltimore, on July 9th, deciding to nominate a candidate not of its own party, would you accept of its nomination of yourself?

Mr. Adams—I must again refer you to my letter laid before the Cincinnati Convention. I have nothing to add or to take from the declarations I then made. I am certainly not prepared to say I should decline a candidature which would not require of me any sacrifice of convictions I have always consistently held.

Mr. Adams was also interviewed as to the strength of Mr. Greeley and the kind of a President he would make if elected, and while his replies were evasive, they were, on the whole, rather unfavorable to Greeley.—Mr. Adams also spoke strongly in favor of the doctrine of State Rights.

The World also printed an interview with Caleb Cushing, but the report contains nothing of special significance.

THE WEATHER.

WAR DEPARTMENT,
OFFICE OF THE CHIEF SIGNAL OFFICER
WASHINGTON, July 7.—8 P. M.,

Probabilities.

Light to fresh easterly to southerly winds and partially cloudy weather will probably prevail on Monday over the South and Middle Atlantic States; partially cloudy weather for N. E.; clear and partially cloudy weather for the northern portion of the Middle States with light to fresh winds.

FROM THE PACIFIC COAST.

BOSTONIANS SWINDLED.

SAN FRANCISCO, July 6. A party of Bostonians have come here in the company of a person who falsely represented to them that he was the owner of a rich gold mine in Oregon, which he abandoned in consequence of the Indians, after taking out $12,000. Some of the deluded speculators are without funds to enable them to return to Boston.

FOREIGN NEWS.

GREAT BRITAIN.

CATACAZY AT WORK AGAIN—HIS DISGRACEFUL PROPOSALS MEET WITH NO RESPONSE.

London, July 6. One Wideman has addressed a letter to the London Echo, offering to sell to that paper a pamphlet written by Catacazy, late Russian Minister to the U. S., containing "sensible revelations" relative to the administration of President Grant. Wideman acknowledges that Catacazy engaged him to sell pamphlets in America, and that he is already treating with the editor of a New York paper for its publication. The Echo publishes the letter, but declines to make any answer to it.

FRANCE.

COMMUNISTS EXECUTED—NEW LOAN.

Paris, July 6. Two Communists named Boudouis and Raiblac, convicted by a court martial, were executed this morning at Satory.

The Minister of Finance has signed a convention with the officers of the Bank of France whereby the latter agrees to loan the Government 40,000,000 francs.

THE TREATY FOR EVACUATION RATIFIED.

The National Assembly to-day with but four dissenting votes, ratified the treaty recently concluded by Count De Remusat and Count Von Arnim, providing for the evacuation of French territory by the German troops.

THIERS AND FRED GRANT.

London, July 6. President Thiers received Lieut. Fred Grant with marked cordiality on the 4th. The President said that Fred resembled his sister Nellie, and she was charming and beautiful. The President also spoke with great pleasure of Gen. Banks and ex-Secretary Seward as distinguished Americans whom he had seen, and begged President Grant's son to present his (Thiers') compliments to his illustrious father. Lieut. Grant was also presented to Madame Thiers, who conversed in English.

SPAIN.

REPUBLICANS TO PARTICIPATE IN ELECTIONS.

Madrid, July 6. The Republicans have reconsidered the determination to abstain from all elections while a monarchy exists in Spain, and will participate in voting for the members of the Cortes on the 24th of August.

IMPORTANT CAPTURES BY THE CARLISTS.

A band of Carlists yesterday appeared on the railway near Lerida, capital of the province of that name, and captured the mail train. A number of important documents belonging to the government were burned by the insurgents.

CONGRATULATIONS.

The Spanish republicans have resolved to send a despatch to the American people through the U. S. Minister, congratulating them upon the recurrence of the anniversary of their Independence.

DR. HOUARD NOT YET RELEASED—LOOK OUT FOR SQUALLS.

London, July 6. [Special to N. Y. Herald.]—The delay in Dr. Houard's release is because Senor Martos wants Minister Sickles to ask for Houard's pardon. This Sickles refuses to do, because the position assumed is that Houard is not guilty and he is therefore unjustly held. Sharp notes between General Sickles and Senor Martos are being exchanged, and telegrams to and from Washington transmitted regarding the affair.

MEXICO.

THE POSITION OF DIAZ.

MATAMORAS, July 5. The Secretary of Diaz, now in Brownsville, denies the alleged proclamation of Diaz, purporting to modify the plan of Novia, published in the Juarez papers. The position of Diaz is, that Juarez not being legally elected, Lerdo is therefore ex-officio President. The Lerdists agree with him, but will avoid a revolution, except as a last resort. They represent the wealth and intelligence of the country, and if induced to pronounce they can dictate their own terms. They probably would not see the complete triumph of Juarez without pronouncing.

SALTILLO NOT CAPTURED.

Dates from Monterey to the first instant, and from Saltillo to the 30th ult., state that the report of the capture of the latter was premature. Trevino, however, is surrounding the city with 3000 troops, and Remettas, having only 800 has offered to surrender conditionally. Trevino demands an unconditional surrender.

VARIOUS MATTERS.

Marango and Barra are in Monterey with 800 men. Quiroza is supporting at a distance, awaiting Cevallo's approach from Camargo. There is no sign of Government reinforcements from the interior, nor is there likely to be any assistance from that quarter at all, as Pedro Martinez holds Sanchez Ochoa. Ochoa is at Urthuala; Donata Guena has captured Durango and engages the attention of Rocha.

The trouble with the National Guards here has been quieted. Juarez telegraphed to merchants here to send ten guns on the fortifications to New York to be recast, but Cevallos stopped the execution of the order because it would leave the city without guns.

The new tariff has gone into operation, but any arrangement will be made with merchants in order to raise money.

The following are the new ministry: Foreign Relations, Jose Maria Lafrague; Home Government, F. Gomez des Palacio; Treasury, Fran Mejia; War, Ignatia Mejia; Interior, Belicas.

Cevallos has just telegraphed that he is starting for Monterey.

HAYTI.

THE UNPLEASANTNESS WITH THE GERMANS.

NEW YORK, July 6. A Port au Prince letter states that two German men-o'-war, after threatening the town with bombardment, and seizing two Haytien men-of-war (both schooners), finally left after the German commander was paid £3,000 cash, as an indemnity for damages to German citizens or outrages by the Haytiens.

DETERMINATION NOT TO PAY THE AMERICAN CLAIMS AT PRESENT.

The Haytien Legislature has agreed to pay the American claims in twenty years, and the Americans are about petitioning their Government to send the naval vessels to follow the example of the Germans.

TURKEY.

THE GREAT CONFLAGRATION CHECKED.

London, July 6. A dispatch from Constantinople announces that the fires in the suburbs of Scutari are checked after destroying a few more buildings than was before stated.

GERMANY.

THE SAN JUAN BOUNDARY CASE.

Berlin, July 6. The Spener Gazette (official) to-day says that Emperor William has appointed three law officers of the Crown to prepare a report upon the San Juan boundary question.

PRODUCE MARKET.

The following report is obtained by particular observation on the market and the quotations are the prices paid for produce from the country teams this day, or about the average for the week past:

HAY, The near approach of the haying season and prospect of a large yield, causes old hay to sell dull and low, the very best qualities of loose bringing $18 to $20 per ton. Inferior grades are hardly wanted at all, but sell according to quality at $10 to $12 and $16 per ton.

STRAW. Loose straw is not very plenty on the market; and good fair loads sell at $14 to $16 per ton.

OATS are selling on the market at about 65 cents per bushel.

BEANS. Very few are now brought into market and the demand for them is not very brisk. Good clean Yellow-eyes are worth $3.75 to $3,90, and extra hand-picked pea beans $3,75 to $3,90 per bushel.

BUTTER is quite plenty on the market, and sells according to quality at 18 to 20 and 22 cents, though occasionally a very extra lot sells at 23 cents per pound.

EGGS have been brought in during the week in large quantity, and the market is somewhat overstocked, owing to the low price for this quality of fruit in the Boston market. They have sold at about 16 cents per dozen.

POTATOES. Old potatoes are still in large supply in the hands of the farmer, by reason of being kept back on account of the continued low and declining price. They have sold during the week at about 20 cents per bushel.

GREEN PEAS are now in the market, and sold to-day at $1,25 to $1,50 per bushel.

STRAWBERRIES are brought in very plenty, both field and cultivated fruit, and are selling at 15 to 20 cents per quart the former in pails at 10 cents per pound. If the supply continues, prices will be some what less.

FRESH MEATS. Round hogs in good condition for the market are worth about cents per pound, and fresh Beef is worth by the quarter or side from 8 to 10 and 12 cents per pound. Lambs sell at 12 to 15 cents and Muttons at 8 to 10 cents per pound.

WOOL, &c. The best quality of wool seems to be dull at 58 cents per pound, and lamb skins are worth 75 cents each. Veal skins sell at 20 cents and Hides at 7½ to 8 cents per pound.

WOOD AND COAL. Good dry hard wood is scarce and sells readily at $7,00 to $7,50 per cord, and the best quality of hard coal for stove and kitchen use is worth $8,50 per ton; soft coal is retailed from the carts at one shilling per bushel.

LOCAL AND OTHER ITEMS

—Twenty through passengers arrived on the St. John train Srturday evening.

—See first page for list of letters remaining uncalled for in the Postoffice.

—The Police summarily squelched a free fight on Hammond street last evening.

—The Tannery and lot on Valley and Kenduskeag avenues will be sold at auction this forenoon at ten o'clock.

—Saturday was uncomfortably warm and "muggy"; yesterday was better, a cool breeze from the west blowing nearly all day.

—Howes' Great London Circus and Menagerie will exhibit in this city Friday, July 26th.

—A little girl named Katie Hartnett, living on Cumberland st., broke her leg near the ankle Friday evening, while playing with some other children around the city roller.

—Mr. S. H. Higgins of Orrington planted a piece of corn Friday afternoon, June 28th, and the following Monday afternoon the corn was up.

—Steamer *Lewiston* took about a hundred people to Mt. Desert Friday; chiefly from the South and West, who go to spend the "heated term" at that delightful place.

—Thirty-nine carloads of freight were received at the E. & N. A. station Saturday, of which 8 were of railroad ties, one of leather, one of hay and 4 of spool-lumber. Eleven cars were from the B. & P. Railroad, two of which were loaded with slate.

SUNSTROKE. Our correspondent writes that a few days since a Mrs. Eaton, who had recently moved to Winterport, was sunstruck and prostrated by the heat. She has not yet fully recovered from the shock.

—Mr. S. P. Bradbury desires us to say that he can stand the damage which may result from the careless use of torpedoes much more good naturedly than he can the more serious damage which may result from the promiscuous use of fire arms.

—The Maine Central Directors have accepted plans and voted to advertise for proposals to erect a new depot at Waterville. It is intended to have it a commodius, beautiful structure, and it is to be located opposite Colby University. A new freight tariff was adopted after being carefully revised.

STRUCK BY LIGHTNING. During the heavy thunder shower on the afternoon of the Fourth, the dwelling house of Mr. C. J. Rowe in Dedham was struck by lightning and considerably damaged. Mrs. Rowe was lying on a lounge in a room on the lower floor, and was thrown off and rendered insensible by the shock, from the effects of which she has not yet fully recovered.

STONE & MURRAY'S CIRCUS. This circus which gave such excellent satisfaction on its last visit to this city, will exhibit on the grounds at the corner of Main and Cedar streets, to-morrow afternoon, and evening. The tour of this circus through the provinces was very successful, the daily receipts averaging over $5,000 in gold, which shows that the Provincials appreciate a good show.

As many as half a dozen drunken men have fallen through this bridge and been drowned in the Kenduskeag, since the bridge was built, when by putting up a gate across the track at each end, to be closed at night, the accidents would have been prevented. Leaving the bridge open has furnished us with a number of first-class items, but it seems pretty hard on the victims.

—Mr. Thomas Ryan, the well known instrumentalist of the Mendelssohn Quintette Club will be, perhaps, somewhat astonished to learn from the Jubilee correspondent of the *Commercial* that

"Mrs. H. M. Smith and Mr. Thomas Ryan, both favorites in Bangor, sang the sacred song, 'Gratias Agimus Tibi,' with cornet obligato, and the effect was very fine."

The unscientific people in attendance at the Coliseum on Wednesday thought that Mrs. Smith did the singing while Mr. Ryan played the clarionet obligato.

FIRE IN HOLDEN. Our correspondent writes that the dwelling house of Simon Stuart, esq., in Holden, came near being destroyed by fire on Wednesday last. Some of the workmen in the steam mill discovered smoke issuing from the windows in the upper part of the house and gave the alarm, whereupon the whole crew left the mill with their fire-buckets and succeeded after a vigorous fight in extinguishing the flames before much damage was done. The fire caught in a chamber from a fire-cracker, it is supposed.

FREE EDUCATIONAL LECTURE. Professor Howe, late of the Union College, Boston, and author of Howe's "Seven Hour System" of Grammar, will deliver a lecture on the "Science of Language," in the City Hall this evening, when he will prove that Grammar as a science, when stripped of its rubbish, its subtleties, its mysteries and confusion, is not a matter of years of toil, but a pleasant recreation of hours. All persons interested in education, [illegible] attend. The lecture will commence at a quarter past 8 o'clock precisely, and is free to all.

ACCIDENTS AT WINTERPORT. Our correspondent writes that on Thursday last a son of Mr. H. S. Cole was driving a produce wagon from Winterport to his home at Cole's Corner, and when passing down the hill near Alfred Colson's, the axletree broke, throwing him under the horses' feet. He was kicked by the animals on the head and arms until quite insensible. He was taken to his father's house and had his wounds dressed, but did not fully recover his senses till Saturday.

During the display of fireworks at Winterport on the evening of the Fourth, a rocket got out of position just as it was lighted, and shot into the crowd, burning the dress of Miss Nancy Merrill and injuring her quite severely.

DECIDEDLY COOL. The Washington Chronicle of Wednesday last had the following piece of "Maine News":—

The people of Maine propose to hold a snow picnic on the Fourth of July. In the northern part of the State there is a snow drift of enormous dimensions, which, although the mercury in the neighborhood ranges from ninety to one hundred degrees, bids fair to last all summer. The drift was originally seventy-five feet high.

"The northern part of the State" alluded to must be the same portion of country alluded to by D. T. Wright of Lewiston when he wrote the St. Louis Republican that "all of the prominent Republicans in the extreme northern part of the United States will be sure to vote for Greeley and Brown."

BAND CONCERT. This evening, if the weather will permit, the Bangor Cornet Band will give another of their enjoyable out-door concerts, on Centre Park, when they will play the following

PROGRAMME:

1—	Quick March—Gen. Chamberlain,	*Ringleben.*
2—	Selections from "Orphee aux Enfers,"	*Offenbach.*

THE NEW FIFTY CENT COUNTERFEITS, which have found their way into quite general circulation, are close imitations of the genuine. The fibre paper has been imitated by scratchy lines engraved on the plate. Some of the points of difference given in Peterson's Counterfeit Detector, are that in the counterfeit the head of Stanton has a different expression, the beard is hard and stiff and the background somewhat irregular. In the words "United States" the blank spaces between the body of the letters and ruled shading are narrow and irregular. On the back of the counterfeit, the hair-lines forming the turns at the top and bottom of the italic letters are heavy; on the genuine they are light and delicate. Examination with a glass reveals numerous other points of difference.

THE FOURTH AT EXETER. The Glorious Fourth was duly celebrated at Exeter, commencing with a fantastic parade early in the morning. A horse trot came off in the afternoon on the grounds of the West Penobscot Agricultural Society, and was attended by some 2,000 people. Several purses were trotted for, but our correspondent does not furnish particulars. In the evening a levee was given by the ladies, in the Agricultural Halls, which was largely patronized. The halls were finely decorated, that on the first floor being devoted to refreshments, and the upper hall to an entertainment, consisting of tableaux, music by the Corinth brass band, etc. At the close of the levee there was a fine display of fireworks on the fair grounds.

CELEBRATION IN HOLDEN. Our correspondent writes that the Fourth was celebrated in Holden by a Strawberry Festival under the direction of the ladies, which was a very pleasant affair. The festival was held in the grove opposite the house of A. B. Farrington, esq., and was largely attended. Tables were spread with the choicest viands, swings were put up among the trees, and every provision made for the comfort and pleasure of the large number in attendance. Dinner was served at 12.30 P. M., after which brief speeches were made. Rev. J. S. Cogswell responded to the toast, "The day we celebrate" and Dea. Z. R. Farrington to "The Past and Future of the American Union" but before the last speaker closed the heavy shower "adjourned the meeting" in quick order to Mr. Farrington's house, where the remainder of the afternoon was pleasantly spent in singing, etc. Other toasts were to have been given in the grove, but the rain prevented.

CARRIAGE MANUFACTURING.

VISIT TO SOME OF THE PRINCIPAL CARRIAGE MANUFACTURING ESTABLISHMENTS IN BANGOR.

Last week we paid brief visits to some of the carriage manufactories in this city and found that this branch of industry, although affected somewhat by the dullness of the times, is carried on quite extensively. There is not however as much done in this line of business as might be if machinery was employed as extensively as it is in some places. This is due perhaps to the lack of a suitable water power, all the shops being so located that no power but steam can be employed. The quality of the work is equal to that manufactured outside the limits of the State; the style and finish are excellent, and in some particulars excel that of work sent here for sale.

The first place we visited was that of JOSEPH WHAREF on French street. This establishment employs three wood workers and four blacksmiths, doing an extensive business in repairing. The class of work done here is of the heaviest kind and embraces nothing outside of that used in teaming. Both wagons and sleds are manufactured—about thirty of each kind being turned out annually. The weekly pay roll amounts to some $100.

STEVENS & MORRILL have quite an extensive establishment on York street, and manufacture to order all kinds of work from a wheel-barrow to a coach. Their business both in manufacturing and repairing will amount to nearly $15,000 annually. They employ four wood workers, four blacksmiths and three painters, the weekly pay roll amounting to $150.

BENJAMIN ADAMS carries on the business of carriage builder and repairer on the same street and does a business amounting to about $12,000 annually, turning out on an average twenty carriages and as many sleighs. He employs three wood workers, six blacksmiths, seven painters, two trimmers, and two yard men. The weekly pay roll of the establishment amounts to $200.

W. F. WHITON &CO., on Harlow street do an extensive business which has steadily increased since its establishment in 1834. Here we found a large number of carriages on hand which are of the best workmanship, style and finish. This work is sold principally in the Western and Southern parts of the State, and the business amounts to about $70,000 annually. Twenty-eight men are employed in the different departments, eight wood workers, eight blacksmiths, eight painters, and four trimmers. They manufacture about one hundred carriages and sleighs annually, and their weekly pay roll amounts to upwards of $250.

B. N. THOMS & SON, on the same street, have the next oldest establishment which dates back to 1849. At this manufactory all kinds of fine carriage work is done and a large supply of different kinds of carriages kept on hand. The quality of their work is equal to the best and the fancy work is hardly excelled in the State. They manufacture on an average upwards of one hundred and fifteen carriages and sleighs yearly, besides many fancy turnouts, not reckoned among the number. Their business amounts to nearly $70,000 yearly and they give employment to twenty-eight men, nine wood workers, eight blacksmiths, six painters, three trimmers, and two silver-platers. Their weekly pay roll amounts to $200.

DROWNED.

RUM'S WORK—AN INTOXICATED MAN FALLS THROUGH THE RAILROAD BRIDGE INTO THE KENDUSKEAG AND IS DROWNED—THE BODY RECOVERED—INQUEST, ETC.

Saturday evening about half past ten o'clock Mr. Fickett, draw-tender at the E. & N. A. Railway bridge across the Kenduskeag, observed a man considerably under the influence of liquor leaning against the railing on the east end of the bridge, and fearful that if allowed to remain the stranger would fall into the stream, he led him out upon dry land and cautioned him not to enter the bridge again. Mr. Fickett did not see the man again, and was about retiring to bed in his house on the pier, at 11 o'clock, when he heard a heavy splash in the water and a muffled cry for help. He immediately ran out but could see nothing save a slight ripple in the water about twenty feet from the eastern abutment. He at once thought of the drunken stranger, and shouting for help, got into his boat and rowed to the spot, hoping that the drowning man would rise to the surface. Nothing appeared however, and he proceeded to search the bottom with a boat-hook. This was fruitless, and obtaining the grapple with which Mr. Colson has recovered so many bodies from the river and stream, he made another trial, which was successful, and he brought to the surface the body of a man which proved, as he expected, to be the same person whom he warned off the bridge an hour before.

The remains were identified as those of James Simpson, a man about 28 years of age, a native of Glasgow, lately employed as deck-hand on the steamer *City of Richmond*, running between this port and Portland. Yesterday morning Coroner Wilson was informed of the occurence, and proceeding to the wharf to which the body had been removed he impannelled a jury and held an inquest. After hearing the evidence bearing on the affair, the jury returned a verdict of "accidental drowning while in a state of intoxication." A sister of the deceased resides in Portland, and the hands on the steamer were desirous of purchasing a casket in which to take the remains of their late companion to that city, but they were unable to obtain an advance of their pay and were obliged to abandon their benovolent project. The remains were taken in charge by undertaker Lowney and interred yesterday in the "strangers' lot" at Mount Hope.

BANGOR POLICE COURT.

BEFORE JUDGE CLARK.

Saturday, July 6th. State vs. Edward Murphy; drunkenness; fined $3 and costs.

State vs. Thomas Stanley; same offence and fine.

State vs. Hannah Cawley; assault on Margaret Mahan; fined $10 and costs; appealed.

THE FANNIE EXPEDITION. Capt. Speed, Gen. Ryan, Capt. Geo. Brown, agent of the steamer Fannie, and twenty of the crew of the Fannie, have arrived at Nassau. They make the following report: The steamer Fannie struck on a reef on the coast of Cuba. After remaining there between thirty and forty hours, during which time the coal on the steamer was thrown overboard to lighten her, the party on board succeeded in safely landing two pieces of cannon and several thousand stand of arms. As the Fannie could not be floated, she was set on fire and totally destroyed. The party then launched the ship's boats and started for the Bahamas, and succeeded in reaching Long Island after a sail of three days. The whole party was brought to Nassau by the schooner Charles, arriving there the 29th ult.

A Matamoras dispatch on the 3d states that the Government troops under Cevallos reached Ceralva near Monterey and operations against the revolutionists in Monterey will be carried on from that point. Reports are current that Trevino captured Saltillo, taking 1200 Government troops prisoners. It is also reported that they have captured correspondence showing that the Government ordered the killing of all Revolutionary prisoners above the rank of Sergeant. The Revolutionists design making Lerdo de Tejado President, instead of Juarez.

Remarking the flippant comments of the N. Y. World on the recent outrage at Yanceyville, the Raleigh (N. C.) Era of the 2d inst. says: "We tell the Tribune and the northern people that the South was comparatively quiet in the midst of the most violent of Ku-Klux outrages to what it will be if Merrimon is elected Governor in August and Greeley in November. The outrages at Milton and Yanceyville will be multiplied by the hundred, with deadly and murderous effect. Those who flatter themselves that a better feeling will grow up and prosper under the administration of Mr. Greeley need to reflect over the diabolical attempt to murder Judge Settle and Col. Henderson. When such papers as the New York Tribune pander to Ku-Klux sentiment and gravely excuse outrages committed by North Carolina Ku-Klux, well may the people become alarmed, for an open outbreak may be expected to immediately follow Mr. Greeley's election."

LOVELINESS ON THE INCREASE.—A marked increase of female loveliness is the eye-delighting result of the immense popularity which HAGAN'S MAGNOLIA BALM has obtained among the ladies of America. Complexions radiant with snowy purity and tinged with the roseate hue of health are commonly met with whenever it is used. For the sallow and unwholesome appearance of the face and neck, which utterly counterbalances the effect of any personal attraction the owner may possess, it substitutes that clear, pearl-like complexion which is such a transcendant charm in woman, and renders the roughest skin as soft as Genoa velvet. No one is more astonished than the person using it at the marvelous transformation which it effects in these particulars.

HALIFAX, N. S., Oct. 4th, 1871.

JAMES I. FELLOWS, ESQ.—Dear Sir: Our sale of your Compound Syrup of Hypophosphites has been very large, and, notwithstanding its high price, has far exceeded that of any other medicine. We have sold from you within the past year, six hundred cases of one dozen each, which have gone into almost every part of the province, and given, so far as we know, UNIVERSAL SATISFACTION.

As it is no "quack medicine," but compounded, as we believe, upon the sound principles of Pharmaceutical science, we trust you will not allow the public to lose sight of a remedy so well calculated to be of PERMANENT VALUE. Yours, very respectfully,

WEBSTER

Pure Warm Air

FURNACE.

This new Furnace, having been THOROUGHLY TESTED, for the last five years, in New York, Massachusetts, Connecticut, New Hampshire and Vermont, and in this city the past winter, with the most flattering results, is now offered to the public of Bangor and vicinity with increased confidence in its merits.

THE ADVANTAGES OF THIS FURNACE

consist in its great radiating surface, whereby a large quantity of air is heated to a moderate degree of temperature, and delivered into the rooms with its vitality unimpaired.

Its Quickness of Operation.

A current of warm air issues almost immediately on starting or replenishing the fire, while in most other furnaces no warm air is obtained from them until the thick iron plates or brick walls enclosing them are themselves well heated. To heat a house of eight or ten rooms most furnaces consume from nine to twelve tons of coal, while the Webster Furnace, to do the same work, needs only from four and a half to six and a half tons.

THEIR CONSTRUCTION

is such that the air is kept pure and not burned, and by means of a new patent double case, all the heated air is saved to warm the house above: not a particle of it is wasted in the cellar or allowed to pass off in the smoke pipe.

Those in want of a first class furnace are respectfully invited to call and examine the WEBSTER, and hear what reliable men of this city say who have used them.

TRUST CHILDREN.—Never accuse a child of a fault unless you are certain he commitied it. Children should not be treated with suspicion We should not act toward them in this matter as we feel we ought to act toward others, only with greater tenderness not less, as is usually done We should always put the best construction possible upon their conduct that is, unless you are sure a child is telling a lie, and can prove it, do not show the smallest hesitation in believing what he says. Far better that you should be deceived than run the risk of showing a truthful child you do not trust him. Your simple trust makes a lying child truthful Your doubt of his truthfulness may make a truthful child a liar —[Christian Weekly

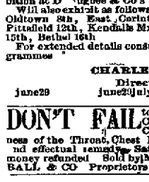
MISS SAWYER'S SALVE.

DON'T FAIL

to try Dr Kimball's Balsam, for Coughs Colds, Hoarseness, Soreness of the Throat, Chest Lungs, &c A pleasant and effectual remedy Satisfaction guaranteed or money refunded Sold by Medicine Dealers. KIMBALL & CO Proprietors Augusta Me wly43

FRIEND WHY



HERE you have a salve combining soothing and healing properties with medicinal virtues hitherto unknown. A remedy at hand for the many pains and ills to which flesh is heir Is most easily applied from many other remedies Does not burn, but takes effect at once, giving relief wherever severe

It is prepared by *Miss Sawyer*, who has used it in her own extensive treatment of the sick for many years with great success

The following diseases which this salve is recommended are *Chilblains Rheumatism, Piles Scrofula Old Ulcers Salt Rheum Sprains, Burns, Scalds Sore Nipples Pimples Erysipelas, Sore Eyes Baker's Itch Deafness Boils Ring worms, Cuts Bites of Insects Cancers, Toothache Earache Sore Throat Mumps, Bunions, Swellings, Itch Scald Head Teeth ng Chapped Hands, Scalds Cuts Bruises, Corns Crooked Lips, and Sores on Children*

It never fails to cure Rheumatism if properly applied Rub it on well with the hand three times a day, in most cases it has cured palsied limbs For *Piles* it has been discovered to be a sure remedy Persons that have been afflicted for years have been relieved by a few applications For *Erysipelas* it works as wonders, allaying the inflammation and quieting the patient For *Chapped Hands* it is a specific and immediately Let those with *Rheumatism* obtain this Salve and apply it freely and they will find it invaluable It is good in cases of *Scrofula* and *Tumors* Cancers have been cured with it. The best Salve ever invented for *Scalded Breast* and *Sore Nipples* No wife or infant that sure to suffer relief *Sore* or *Weak Eyes*—Rub it on the lids gently once or twice a day Carefully putting in the sore on a piece of cotton For *Pelons* this is superior to anything known For *Pimples* this salve like a charm For *Burns* and *Scalds*, apply the Salve at once and it gives immediate relief For *Old Sores*, apply once a day

Not among the least of the invaluable properties of Miss SAWYER'S SALVE are its beneficial effects on the hair Rubbed on when going to bed or six different parts, it promotes the growth of the hair, prevents it turning gray, and on bald spots it produces a new growth of hair No lady should be without this invaluable article as an indispensable necessity for the toilet. It eradicates dandruff and disease from the head, and blotches and pimples from the face.

From Mrs ELIZABETH COOMES Brunswick.

BRUNSWICK April 4 1867

MISS SAWYER I received your letter last evening and was very glad you consulted to let me take your Salve. I think I can do well with it, and it will be quite an accommodation to my husband, as he cannot get along without it. He has tried everything, and says never found anything that healed like it as half Some of yours, and we have both found it to be all and more than you recommended it to be. We have had it in the family five or six years, and have used it for everything, and can truly say we have never found it to equal. I take it for a sore throat, and it acts like a charm. My Cousin has had a *Fever Sore on his leg for thirty years, and could get a cure to-day It has had and found a remedy in your Salve.* It healed and takes out the inflammation, proud flesh and swelling and looks for all the world like it can ask I can recommend it for a good many things that you have not, for I use it for everything I require in my family, and can say nothing else Have taken especial pains to prepare competent persons to take charge of it, and from the house free of charge, and furnished with the boxes and
